SEED PAPER

A set of paper products made from recycled cotton mixed with flower seeds like poppy, daisies and chamomile.
From cotton rags, we add seeds and water to make sheets of 150 to 180 gram that can be printed.

To grow the flowers, leave the paper in water for five days, cut it into small pieces, place it in a pot with soil (or garden) and water it until it is moist.

This paper can be fully customized to create campaigns or promote events.
